NRO REVIEW COMPLETED

12 February 1963

MEMORANDUM FOR: Deputy Director (Research)
THROUGH: Assistant Director (Special Activities) *JK*
SUBJECT: Review of OXCART Contingency Plan

1. It is my understanding that recently Dr. Fubini expressed his dissatisfaction with the currently approved OXCART contingency and cover plan, although I was not informed in detail concerning his objections.

2. In any event, because of this and because we are about to enter a new phase of the program (i.e., procurement of the Air Force version, increased sortie rate, etc.), it is recommended that you request Dr. Charyk to call a meeting of the Cover Committee for the purpose of reviewing the present plan and either amending it if such appears necessary, or reaffirming its validity as it now is written. I think Dr. Fubini should be invited to express his views and suggestions.

3. In conjunction with reviewing the OXCART plan it might also be advisable for the Committee to re-examine the other cover and contingency plans to insure that they are still applicable.
